CLASSIFICATION STUDY PROJECT

FREQUENTLY ASKED QUESTIONS (FAQ’s)

Q  What is the purpose of the Classification Study?
A  The purpose of this study is to obtain accurate and descriptive information about the work in the classified positions. The goal is to update the job descriptions and ensure that positions are correctly classified.

Q  Why is a Classification Study being done now?
A  The goal of this project is to ensure that all classified job descriptions are current and accurate. Many of the job descriptions have not been updated in 20 or more years. Updated job descriptions are critical for a good recruitment and examination program. Accurate job descriptions are also an essential ingredient of a comprehensive compensation program. A job description provides a basis for job comparison to market data collected for that job. It also is a helpful tool in developing a job worth hierarchy (job families). It typically reflects the value of the job and the relationship of the jobs in the organization to each other.

Q  Will the study include looking at salaries?
A  Yes. Once the job descriptions are updated, a salary survey can be conducted using current data so that accurate comparisons can be made. Considerations for salary determination depend on comparable market value and internal alignment. A goal of the project is to determine that classified salaries are competitive for retention and recruitment purposes.

Q  What classifications will be studied in this project?
A  The initial scope of the project will include all classifications represented by CSEA. There are approximately 75 classifications and 613 positions. The size and scope of this project is very large.

   JoAnn Garner, CSEA President
   Cheryl Browning, CSEA Vice President

The District and CSEA have entered into a Memorandum of Understanding (MOU) temporarily suspending Article 18 (regarding reclassification) of the CSEA contract during the period of the Classification Study Project.

A  The Classification Study will be conducted by an independent Consultant Firm who have expertise in conducting such studies.
