A Three Year Cycle

The LCAP is written to cover a three year period and is updated each year. The plan that will be approved in June, 2019 will include services for 2019-20—the final year in the current cycle.

2017-18	2018-19	2019-20
LCAP Year 1	LCAP Year 2	LCAP Year 3

What informs the LCAP?

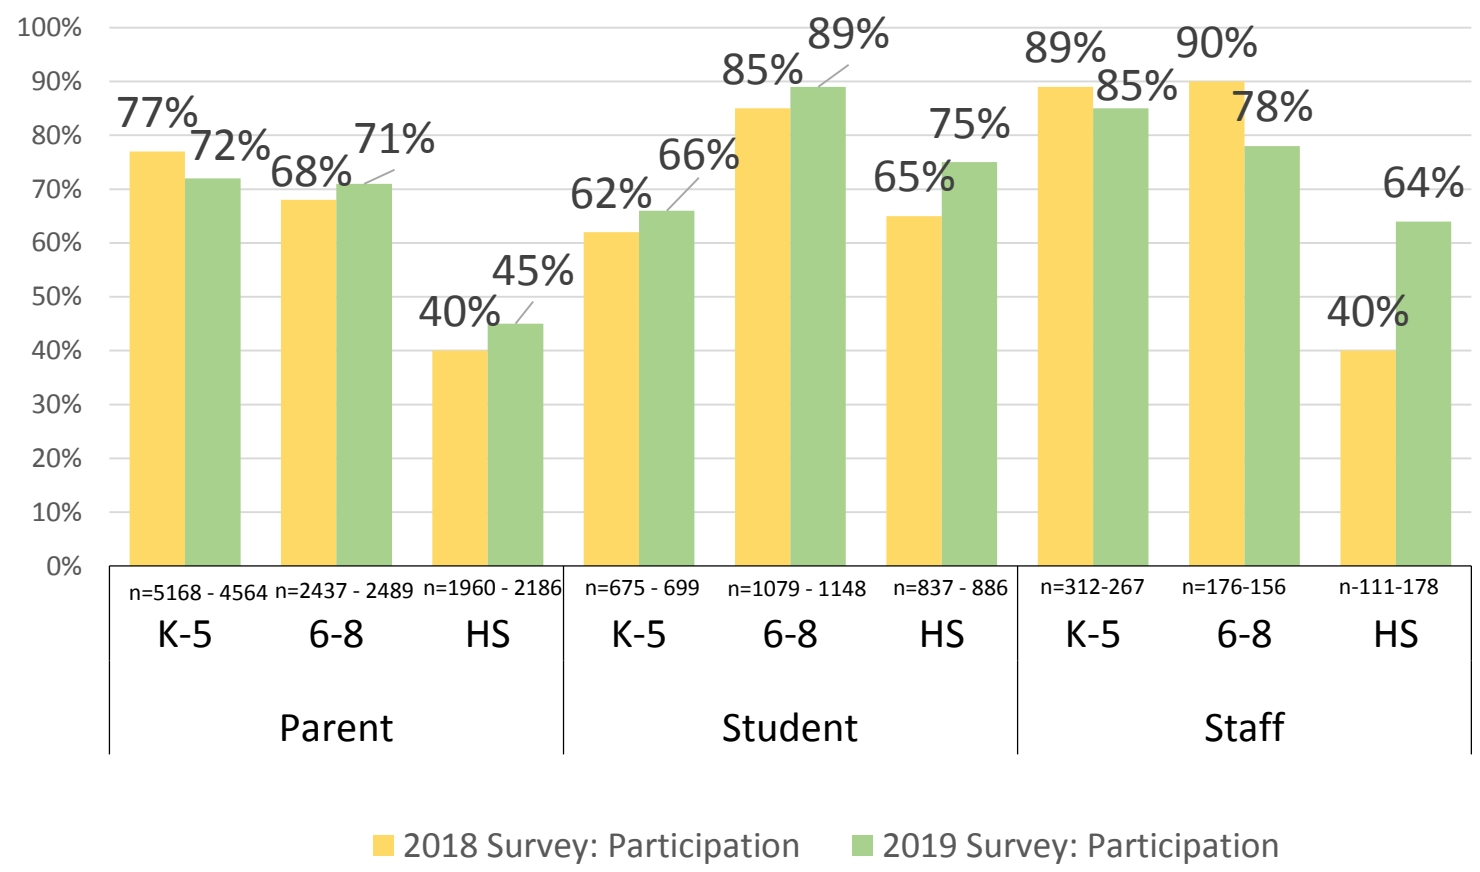

We use multiple sources of information to analyze how the services in the LCAP are working; what needs to be revised; what needs to be added. These include:

- *State indicators*, including state CAASPP ELA and math tests; suspension, absenteeism rates.
- *Results from surveys* administered to school staffs, parents, students.
- *Input and feedback* from LCAP and Parent Committees.
- *Local needs and district priorities.*

Overall parent, student and staff participation in surveys increased.

Participation Rates
 Parent and Student Survey, 2018 & 2019

Methods

- Student surveys were administered in grades 5, 7, and 12 through Illuminate, our online platform.
- Staff surveys were administered online through Survey Monkey.
- Parent surveys were administered on paper through schools.
- All surveys were administered in January 2019.
- Survey results are used to inform future LCAP services and how Title I funds are used.

How to read the LCAP: Plan Summary (pages 1-3)

2017-20 Plan Summary

The Story

Describe the students and community and how the LEA serves them.

PUSD serves approximately 14,700 students in eleven elementary schools, four middle schools, one comprehensive high school located on two sites, a continuation high school and a new, STEM themed high school that opened in fall, 2018. The student community is 93% unduplicated students, with a third of these identified as English Learners. The district is committed to using resources to provide quality school facilities and instructional programs to prepare students for high school and post secondary education. District initiatives focus on providing personnel, professional development and instructional technology to equip every student be successful in preschool through high school and leave prepared for post secondary careers and college. Resources are used to meet students' academic and social emotional needs by providing academic coaches, school counselors, social workers and early childhood learning.

LCAP Highlights

Identify and briefly summarize the key features of this year's LCAP.

High Quality Professional Development, Curriculum, Assessments and Materials

- The plan includes a continued commitment to allocating resources for effective instruction: professional development for teachers, administrators and classified staff; current materials and texts; expanded resources for student groups in greatest need: Homeless students, students with disabilities, Foster Youth, English Learners. These services are included in Goals 1 and 3.

College and Career Readiness

- PUSD continues to devote significant resources to providing and expanding experiences that prepare students for college and careers. The expansion of AVID, new CTE and A-G courses and new partnerships with local community colleges and the expansion of a new STEM high school to include ninth and tenth grades in 2019-20 increase access to college preparation. These services are outlined in Goal 2.

Supports for Social Emotional Learning and Behavior

- Feedback from surveys administered to schools showed the need to increase social emotional support for students. Goal 1 includes services that will continue from previous years: counselors, deans, Behavior Specialists and professional development on restorative practices and MTSS approaches. These services are expanded to include social workers at every middle and high school.

Review of Performance

Based on a review of performance on the state indicators and local performance indicators included in the LCFF Evaluation Rubrics, progress toward LCAP goals, local self-assessment tools, stakeholder input, or other information, what progress is the LEA most proud of and how does the LEA plan to maintain or build upon that success? This may include identifying any specific examples of how past increases or improvements in services for low-income students, English learners, and foster youth have led to improved performance for these students.

Greatest Progress

After reviewing Dashboard results, staff, parent and student surveys, the following are areas of greatest progress in 2018-19:

Decrease in Suspension Rates – Extensive resources were devoted to supporting students social emotional well being and providing alternatives to suspension. These included social workers at high needs schools, professional development for teachers on MTSS behavior approaches, Behavior Specialists, counselors at every site and multiple counselors at middle and high schools.

Positive Outcomes for Foster Youth – PUSD's foster youth student group performed as well or better than students overall in four of six state indicators. They had lower chronic absenteeism and more students met the CCI than students overall. After learning about the supports FY students received, we will extend these same services to include Homeless students in 2019-20.

Opening of a New STEM High School – Odyssey High School opened with 140 ninth grade students on a redesigned campus created to provide problem based learning experiences, student internships and daily use of technology for learning. Student survey results show a high level of satisfaction with this alternative high school curriculum.

Stakeholder Engagement

LCAP Year: 2019-20

Involvement Process for LCAP and Annual Update

How, when, and with whom did the LEA consult as part of the planning process for this LCAP/Annual Review and Analysis?

Stakeholder input is an important component of developing the LCAP in PUSD. Surveys are an effective means for eliciting input from stakeholders. The following groups completed surveys on the impact of LCAP services: students in grades 5, 7, 12, and 9th grade students in the new high school. All parents and teaching staff were surveyed as well. The response rate follows:

- Parents - 9,239
- Staff - 600
- Students - 2,733

Parent Engagement

Parent input and feedback are solicited through two parent committees as follows:

English Learner Parent Advisory Committee (EL PAC)/DELAC: The EL PAC and DELAC serve as one committee. The members are composed of parents of EL students. Members are elected by parents of ELs and represent each school site's ELAC.

- October 30, 2018 -
- December 6, 2018
- January 17, 2019
- February 28, 2019
- April 11, 2019
- May 9, 2019
- May 30, 2019

Parent Advisory Committee (PAC): The PAC is composed of representatives from every school site. Members include parents of ELs, low-income and Foster Youth.

- November 16, 2018
- February 1, 2019
- March 29, 2019
- May 24, 2019

LCAP Committee Engagement

The LCAP Committee includes teachers, administrators, bargaining unit president, superintendent, and two Board members. The committee reviews the current LCAP actions and services. Members also analyzed state indicators, local data, and survey results in order to provide input on the impact of the LCAP services and suggest how services can be improved.

The LCAP Committee met as follows:

- **October 24, 2018** - Reviewed purpose and procedures for developing the LCAP; analyzed outcomes on state indicators; reviewed new actions and services in Goal #1 for 2018-2019.
- **November 28, 2018** - Analyzed outcomes for English Learners; reviewed purpose, audiences, and timeline for annual surveys; reviewed new actions and services in Goal #2 for 2018-2019.
- **January 23, 2019** - Learned about district levels of support and two student groups eligible for Differentiated Assistance; used California Data Dashboard to analyze outcomes by student groups.
- **February 26, 2019** - Learned about levels of support at the school level and the schools identified for ATSI and CSI; analyzed data from parent and staff surveys.
- **March 20, 2019** - Analyzed data from student surveys; learned about successful practices implemented for Foster Youth to consider for other student groups; reviewed proposed new initiatives.
- **April 24, 2019** - Provided input on proposed new actions and services for the 2019-2020 LCAP as related to identified needs; reviewed budget

Demonstration of Increased or Improved Services for Unduplicated Pupils

LCAP Year: 2019-20

Estimated Supplemental and Concentration Grant Funds: _____ Percentage to Increase or Improve Services: _____

Describe how services provided for unduplicated pupils are increased or improved by at least the percentage identified above, either qualitatively or quantitatively, as compared to services provided for all students in the LCAP year.

Identify each action/service being funded and provided on a schoolwide or LEA-wide basis. Include the required descriptions supporting each schoolwide or LEA-wide use of funds (see instructions).

Action 1.10 (Foster Youth), Action 1.17 (Low Income) 3.8 (English Learners) are limited to unduplicated students. Actions and services included in Goals 1-4 meet the standard of increasing or improving the quantity or quality of services and will be effective in supporting EL, Foster Youth and low income students to achieve the goals in the LCAP by:

- Expanding the quantity of services by including additional students, grade levels and/or schools during the 2019-20 school-year.
- Increasing the quality of services with in depth approaches, deeper or more innovative implementation or a new service as the result of an analysis of needs in student behavior or achievement.

The descriptions below outline how each service is principally directed toward unduplicated student groups.

GOAL 1 - Description of Service Principally Directed

Action 2 Unduplicated students have higher D/F rates and lower A-G completion rates than the general population. The use of formative assessments and data reports on academics, behavior and attendance allow principals, teachers and district staff to monitor progress, identify mid course corrections needed to increase graduation. Formative assessments, staffing for the Research Office, software and web based platforms to monitor unduplicated students' progress assure they graduate high school and complete A-G requirements which is a district priority.

Action 3 Research shows that students who struggle academically in middle school have a greater risk of failure in high school. Collaboration and lesson planning on effective instructional practices for un-duplicated students in grades 6-8 address a district goal to increase the percentage of unduplicated students who pass academic courses and are reclassified before high school.

Action 4 English Learners, low income students begin school with fewer literacy and language experiences. Summer school provides literacy opportunities for unduplicated K-5 students, with priority for ELs, to reduce this gap. A two-week study skills summer program for grades 6-8 introduces incoming sixth grade students to a new campus and provides seventh and eighth grades students with essential study skills to be successful in middle school. Long term English Learners in seventh and eighth grades will participate in a summer program for AVID Excel. Unduplicated high school students have a higher D/F and lower graduation rate than students overall. Summer school provides increased opportunities for them to accelerate or make up courses to graduate on time; college courses and courses needed to complete A-G requirements to increase percentage of students who are "prepared" as measured by the CCI.

Action 5 These services maximize instructional time for unduplicated students by providing quality music and PE instruction from certificated staff while teams of teachers collaborate for professional learning, analyze and monitor assessment data and plan high quality lessons. Research shows that students who are engaged with school through extra-curricular activities are more likely to graduate; after school athletics programs for unduplicated students at each middle school increase engagement.
