INTERNSHIP GOALS

“Something I wish to accomplish in the next 8 weeks, is to feel more confident in my ideas and feel confident when speaking to others. I feel if I don’t fix this now, it’s just going to become a bigger problem for me. If I want to be in this industry, I have to be able to communicate with others well. Another thing I would like to be able to accomplish is, being able to learn how to edit videos.”

Description

Something I wish to accomplish in the next 8 weeks become a bigger problem for me. If I want to be in the industry, I have to be able to learn how to edit videos.

What is the plan?

The best result from accomplishing my wish, is having a second wish, will be to be able to edit videos I take a step back from accomplishing my wish is just the anxiety I get when talking and if I want to learn how to edit videos, I have these weights attached to this wall.

EXHIBITION REFLECTION

"This brings myself back to a goal I made in the first trimester..to be more open to others and not have these short awkward conversations. I have accomplished this goal, which I honestly thought I couldn't do. I have to thank my mentorship for this, which is my main artifact. The time I have spent there really helped myself grow as a person."

“IT IS COURAGE THAT ALLOWS
US TO EXPLORE. TO PUSH
FORWARD. TO VENTURE INTO
THE UNKNOWN.”
